

Sierra National Forest

- Non-FS (102,621 acres)
- USDA Forest Service (1,316,336 acres)
- Unmanaged - Wilderness, IRA (735,598 acres)
- Fire Boundaries Since 1984
- Dense Mature / Old Conifer Forest (406,436 acres)
- Complex Early Seral Forest Since 1984 (8,748 acres)
- Complex Early Seral Forest Eliminated (3,492 acres)

NOTE: Acres of complex early seral forest above are higher than actual, and acres of complex early seral forest eliminated are lower than actual, since the complex early seral forest removed through post-fire logging in 2014 within the Aspen fire is not yet available as a GIS layer.
